

INGLAZE is a part of the renowned In-Land® Group, a 35 year old conglomerate consisting of various verticals - Real Estate development, Hospitality, Architectural & Interior Design and Manufacturing. Over the last three decades In-Land® has carved out a name for itself as a brand synonymous with excellence, well known for bench-marking its quality standards, unwavering commitment and timely delivery across South India. INGLAZE, born out of the same values, specializes in design, manufacture, installation and service of precision-engineered, 100% customized Aluminium and uPVC windows and doors. Our range of energy saving and sound insulating products provide customers with a better quality of life, while its user-friendly design leaves customers emotionally satisfied.

UPVC Window and Door Systems

Inglaze deals only with high quality uPVC profile manufacturers from Europe. With a combination of uncompromising quality, extended warranties and an excellent supply chain management, Inglaze has quickly cemented its position as one of the country's most sought-after premium uPVC window systems.

Lead free: 100% free of lead and other additives, making it a green product that is safe for you and family.

Air and Water Tightness: The use of co-extruded EPDM gaskets ensure there is zero air or water permeability.

Sound Insulation: Although sound insulation depends greatly on glass type and thickness, our profiles minimize the transfer of sound by using special hardware and gaskets between frames

Energy Efficiency: With a u-value between 1.5 to 2.5 and multi chambered structures, our profiles prevent transfer of heat inside your house

Smooth Operation: With a built-in uPVC guide rail system you will never struggle with sliding your window open/shut (as opposed to other profiles where after-market metal guide rail is added causing much friction while sliding)

Safe and Secure: With concealed reinforcement to withstand high wind pressure and fluctuating loads in high rise buildings

An entire range of Aluminium System Windows - Sliding, Openable, Tilt & Turn and Sliding Folding with depth of the profiles running from 22mm to 75mm to suit different conditions of opening sizes, wind load, smooth operation and of course, affordability. Each system window with its unique properties shuts out disturbances like water, bugs, noise, dust thereby aesthetically ensuring a good view to the outside, good functionality and safety; filling your home with complete comfort

Luxury Aluminium Systems

Inglaze also manufactures super-premium imported aluminium architectural systems from Europe. These window and door systems cater to some of the leading projects designed by leading Architects all around the world.

MANUFACTURING UNIT

Italian machinery combined with a highly skilled work force at our state-of-the-art facility in Peenya, Bangalore

PROJECTS

Client Name	Deccan Group
Project Name & Location	Deccan Habitat, Yeshwanthpur
Scope of Work	36,000 Sft
Value of works	₹ 1,50,60,000
Status	ONGOING
